

# PROJECT REFERENCE

## Data Centre, Ireland

### Data Centre, Ireland

Moy Materials were invited to assist with the rooftop waterproofing design and specification package for this private Data Centre project in Dublin, Ireland.

We worked alongside the main contractor to ensure 100% waterproofing integrity on this high value project. The rooftop was installed by Moy Materials approved contractors.

Moy Materials Paraflex FM Warm Roof System was specified on this project by Gensler Architects. The project saw the stages of the build including the installation of metal deck and Aquapanel, VCL installation, Base sheet and Cap Sheet Installation and finally completion and plant installation ensuring the project was delivered on time and within budget.
